

Logistics

- > Through understanding our customers' unique demands in the Transport and Logistics marketplace, Toshiba has developed a complete portfolio of products and solutions designed to improve efficiency, effectiveness and stream-line operations across the widest variety of applications.
- > We support your information workflows and ensure hassle-free document creation to save your time and money.
- > Alongside providing the right solution for you it is core value of Toshiba that we aim to minimise the impact our products have on the environment and strive to develop solutions for a greener tomorrow.

PRODUCT PORTFOLIO

- 1 Our single- and multifunction printers come in various different sizes, speeds and configuration possibilities. But what they all have in common is their outstanding image quality and intuitive usage.
- 2 Toshiba's range of barcode printers covers all aspects of your labelling needs. Whether you need a portable printer or wide-web pallet labels, we can provide you with the perfect device.
- 3 Our software solutions are as individual as your needs. Covering all areas of modern document and information workflows our applications can be customised to match your individual requirements.

QUALITY BEYOND STANDARD

Moving goods also means moving information. Without the right documentation at the right time and place, business is not possible. Toshiba offers a wide range of products which ensure that your documents are up-to-date, and available whenever needed.

Our hardware and software solutions all integrate seamlessly into your existing workflows and networks and will help to reduce costs, manage demanding timings, whilst improving overall business efficiency in today's increasingly challenging Logistics operations.

Fast - Accurate - Reliable

Your customers are your most important asset and we can help you offer them the best possible service from end to end:

- > Quotations and offers
 - Impress your customers with impeccable documents, which reflect the professionalism of your business.
- > Labelling of goods
 - Create barcodes for fast and easy tracking of goods to enhance visibility.
- > Shipping documents
 - Prepare comprehensive shipping and customs documents which allow smooth processing and ensure a timely delivery.
- > Invoicing
 - Send out accurate and detailed invoices which have the same high quality as your initial offer.

Our state-of-the-art technology can be customised to meet your company's needs. This perfect fit will give you the competitive edge and make you an extraordinary business partner.

SUSTAINABILITY

At Toshiba all our business processes, technology and products are designed to help foster a more sustainable society. We offer a range of eco-friendly solutions to supplement your environmental strategy. We thereby base all efforts on our three core principals:

ECOLOGY - ECONOMY - EFFICIENCY

Reuse before recycling

Even though more and more documents are being processed electronically, there are still many documents, which need to be printed. However, very often these documents are thrown away within only a few hours. With the e-STUDIO307LP/RD 301 Toshiba has developed a system which allows you to reuse paper and save up to 80% of resources.

Only pay for what you need

Finding ways to reduce power consumption is becoming more and more important. So why pay for electricity you do not need? Toshiba's Energy Manager for office is a smart software solution, which optimises the power consumption of all PCs and MFPs within your network. Not only will this cut your energy costs, without impacting your productivity, you will also contribute to a greener tomorrow.

Offset what you can't avoid

Efforts to reduce the carbon emissions are growing, but it is impossible to eliminate these emissions altogether. Toshiba's Carbon Zero Scheme lets you offset the unavoidable. Our industry-leading offsetting programme supports various Gold Standard projects around the world, underlining Toshiba's commitment to people and the future.

The Toshiba Eco-MFP - revolutionising the way we print.
For more information on our eco product portfolio, please visit us at www.eco.toshiba.eu.

Toshiba ECO-MDS: Greater than the sum of its parts

The combination of reducing wasted paper and energy consumption is a sure-fire way to ensure that you can fulfil your goals to reduce environmental burdens associated with your business, while improving control of IT assets and realising cost savings all in a single stroke.

There has never been a better time to talk to us about the future.

About Toshiba Tec

Toshiba Tec Germany Imaging Systems GmbH is part of the globally operating Toshiba Tec Corporation, active in various high-tech industrial sectors.

Toshiba Tec Corporation is a leading provider of information technology, operating across multiple industries - ranging from retail, education and business services to hospitality and manufacturing. Together Information is Toshiba's vision for how people and organisations create, record, share, manage and display ideas and data.

It is based on our belief that the most successful organisations are those that communicate information in the most efficient way.

We make that possible through an integrated portfolio of industry-specific solutions, all of which reflect Toshiba's commitment to the future of the planet.
